

Aspen Hollow

Don't grab the bug spray, because these insects are playful. Kids will delight when they see the oversized insects crawling all over the tree house. With fantasy play in mind and larger-than-life insects, children can pretend that they have shrunk and live amongst the insects. The tree house looks to be carved into the tree bark and provides two levels of play. The children can enter the doorway and climb to the top. When they reach the top, they can look out over the playground. The balcony has safety netting, so there is no worry of falls. There are windows to look out, and two exits. They can choose to slide down the twisty turbo slide or climb down the Leaf Climber. We love all kinds of creatures, and insects are definitely one of them. We have lady bugs, ants, centipedes, and dragonflies. The 4 Kids' artists are extremely talented and can craft just about anything with the glass fiber reinforced concrete. If there is another animal or insect you would like, we could custom make it just for you. This treehouse is made from gfrc with a tree bark texture, and the roof is made with cedar shingles. Are you ready to create your own Aspen Hollow tree house? Call The4Kids to speak with our friendly staff about making your fantasy play house ideas a reality.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
