

# Athens Bollard

---

---

Don't let necessary security measures detract from your property. The Athens Bollard delivers superior strength in an attractive, modern package. Our designers crafted this with glass fiber reinforced concrete (GFRC), a material with a higher tensile strength than steel. What's more, since there are no steel supports, it won't corrode. We've shown it in concrete finish, but it's available in a range of colors and finishes, making this an ideal choice for venues, museums, schools, and office or residential buildings. We'll mold this into whatever size you prefer to ensure you're getting the right security post for your site.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.

## Contact Us
