

Triple Horizontal Bar

The triple somersault bar is a great way for children to play and work on their balancing skills. Our triple somersault bar has three levels to add a dimension of challenge to the bars. Multiple heights are offered to help build strength, particularly the biceps. Each section is almost 4foot in width and allows for more than one climber at a time. These bars are a great way for children to gain exercise and play at the same time. The 4 Kids specializes in customizing play equipment, call us today and we will help you design your next playground.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
