

Triple Balance Beam

This extended beam presents a challenge with its slight change in course; helping children learn to not only develop their large motor skills but control the experience. These beams give the impression that they are stacked, while in fact they remain secure and are elevated to a maximum height of 12" to minimize fall risk. These beams are hand crafted from glass fiber reinforced concrete; this material will ensure that your playground is rust and rot free. This will minimize your maintenance cost overall. The 4 Kids is committed to creating materials that not only inspire imaginative play but are also a safe environment for all children to enjoy themed play. Let The 4 Kids help you with your next project. *Call us today!*

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
