

Tree Stump Stepper Challenge

Energetic kids like nothing more than the chance to let off some of that steam by jumping, made all the more fun when there's a challenge involved. The 4 Kids amazing Tree Stump Stepper Challenge jumps up the fun at theme parks, commercial playgrounds, indoors, outdoors or wherever active children gather for fun. Built for enjoyment as well as variety, the authentically designed stumps range from 18 to 24 inches high, perfect for testing coordination and setting young imaginations free. Jumping from stump to stump improves balance and motor skills while giving delighted kids a chance to involve their friends in a super fun challenge. Crafted by a team of playground artists, designers and engineers, the stumps are actually glass fiber reinforced concrete, which makes them virtually indestructible in any condition Nature can throw at them. The low maintenance, superior finish remains undamaged under the bouncing feet of hundreds of happy kids as well as in snow, ice or even salt spray, making this stepper challenge a natural for playgrounds everywhere.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
