

# Birch Fallen Log

---

---

Children can practice their balance and coordination on the Birch Log. Our log hurdles are made low to the ground to offer easy access and a short fall zone. With the realistic bark texture, achieved using GFRC (glass fiber reinforced concrete), children can enjoy sensory play by exploring the crevices and rough textures along the surface of the log. We also offer the Log Hurdles with a smooth texture for a different look. This item comes in 4', 6' and 8' lengths, but can be customized to what you need. Pair it with our Stump Stepper Challenge to really offer a naturistic course of fun. The quantity and lengths are up to you.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
