

Beaver Post Topper

Imagine a magical day of adventure and fun at a fantastic Woodland Theme Park, where a walk through the deep forest can put you eye to eye with the most fascinating creatures, like beavers! The 4 Kids Beaver Post Topper is a meticulous replica of a real beaver who sits atop a park utility post and surveys his surroundings with a gaze that will have park goers looking twice to make sure he's not about to scamper off. Kicking up the fun factor on a border of utility posts along walkways, at entrances, bearing signage or defining spaces for park ride queues or eateries, this adorable little beaver sets the stage and points the way to an awesome time in parks, playgrounds, family fun outlets, museums, resorts and many more entertainment venues. The possibilities are simply endless, and The 4 Kids post toppers are popular among park planners who value the artistry and the superior craftsmanship by a world-renowned team of expert playground artists and sculptors in the Greenville, Texas studios. Virtually maintenance free all year round, the post toppers are weather resistant, even in ice, snow, and damaging sea salt spray.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
