

Cotton Bale Bollard

Who says security amenities need to look boring?! The Cotton Bale Bollard is a tough security barrier that provides safety while adding fun and realism to themed attractions, schools, children's museums, and more. We've shown it here in the realistic finish, which is so detailed some guests might be tempted to think it's an actual cotton bale. The material we use is glass fiber reinforced concrete (GFRC), a composite that will resist impact as well as withstand weather and rambunctious kids. This bollard is ideal for preventing parking, protecting visitors or guests, and way finding.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
