

# CALIFORNIA PARK

IRWINDALE , CALIFORNIA

*A beautiful tortoise sculpture brings in a bit of nature*

- Provided a replacement Tortoise for the park in Irwindale
- Beautiful and realistic piece of playground art for children to enjoy
- Made with weather—resistant, kid—tough material

#### **Challenge:**

The 4 Kids' design team needed to create a tortoise sculpture to replace one that had been vandalized at a local park in Irwindale, California.

#### **Solution:**

To meet the customer's request, and to help against future vandalism, we needed to make something that could resist time, weather, and a beating. The tortoise shell was made with glass fiber reinforced concrete (GFRC) and filled to add weight and strength. This material is durable, long—lasting, and earth friendly. We also gave it a coat of anti—graffiti to help against future acts of mischief.

IRWINDALE , CALIFORNIA

### Result:

Blending in seamlessly, the new tortoise sculpture is sure to add to the beauty of this local park. Anyone visiting won't be able to resist stopping to check it out and take a selfie. Kids love to play. Parents appreciate the artistry and attention to detail, and park attendants love the low maintenance this piece requires. It is truly a piece for everyone to enjoy.

### Next Step:

When it comes to keeping your park beautiful, and the memories of favorite past-times alive, we are here to help. Need a play sculpture for your park or a replacement piece due to vandalism? Let us craft something beautiful and strong for you. Contact The 4 Kids to learn more about our kid-tested, kid-approved play structures.
