

CITY OF PARIS

PARIS, TEXAS

Fruits and Veggies Brighten the Day

- Created several appetizing-looking sculptures
- Brightly colored, farmer's market décor
- Engineered custom structures with durable materials that stand up to the elements

Challenge:

The City of Paris' community is strong. Their farmer's market is a weekly get together for the people to come and gather shared goods. The city wanted to brighten the market up a bit with some colorful sculptures that would add a bit of whimsy to the market.

Solution:

A watermelon, mushroom stools, tomato, peppers and an onion were crafted using durable materials and painted with bright colors to really make their presence known. They were made as décor for the entrance of the farmer's market.

CITY OF PARIS

PARIS, TEXAS

Result:

The display will attract passers-by and bring in more patrons to visit the local vendors. These brightly colored sculptures will last for many years of weekend outings. The material is low maintenance, making it an ideal choice for any setting.

Next Step:

The 4 Kids play equipment is custom designed and crafted of environmentally safe and virtually maintenance free materials, the obvious next step for park planners is to contact us for a consultation. Our team will help custom design the perfect playscape to fit your needs.
