

CONNOR'S FARM

DANVERS , MASSACHUSETTS

Pig on the Farm

- Provided a special pig sculpture for a local park
- Crafted using details to give a more realistic appearance
- Built with weather resistant, low-maintenance materials

Challenge:

The director of Connors Farm contacted us requesting something special for their local park. Their public attraction offers an outdoor experience by welcoming patrons to their farm for seasonal fun with games, rides, and more. They wanted a pig sculpture that could withstand the weather up North.

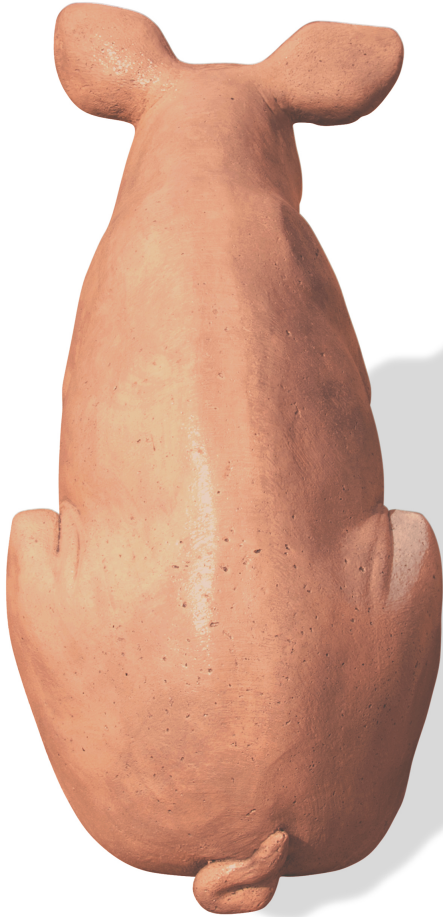

Solution:

To meet the customer's request, we needed to make something that could withstand the harsh cold of the North and constant touching by kids and daily patrons. The pigs were made with glass fiber reinforced concrete (GFRC) for a feature that would last for years of adornment. This material is durable, long-lasting, and earth friendly.

CONNOR'S FARM

DANVERS, MASSACHUSETTS

Result:

Blending in to its new home, the adorable pig sculptures are sure to add to the charm of this local park. Everyone who visits won't be able to resist stopping to check them out and take a selfie.

Next Step:

No matter what your project may be – whether it's making a beautiful park or creating a preschool play yard - The 4 Kids wants to work with you. [Contact us](#) for a free initial consultation.
