

EMERALD COAST SCIENCE CENTER

FORT WALTON BEACH, FLORIDA

Beautiful Sea Creature for Children

- Custom designed, realistic looking turtle sculpture
- Crafted using resilient, low-maintenance material
- Designed for children exploring their curiosity

Challenge:

The museum contacted us to procure a special addition for their museum. Their location offers many exhibits including close-up animal encounters. Their on-hand learning experiences and educational classes offer children incredible learning opportunities. Their request of us was to create a special addition to include in their expansion of fun.

Solution:

This education center is a welcoming place that invites kids to explore and ask questions about the world around them. The Emerald Coast Science Center welcomed the new addition of the Loggerhead Turtle. Kids love to play, and this piece is great for little ones to sit next to or on top.

EMERALD COAST SCIENCE CENTER

FORT WALTON BEACH, FLORIDA

Result:

Because our play sculptures are crafted from durable, low-maintenance materials, staff members - from administrators to janitors - are free to focus on providing a safe, nurturing learning environment for the children in their care.

Next Step:

Any color, any size, any texture... The 4 Kids will turn your themed playground idea into a reality. [Contact our team](#) for a free initial consultation -we'll transform your museum, playground, or athletic facility into a place where visitors make memories.
