TEALWOOD OAKS PARK

FLOWER MOUND, TEXAS

Bringing Nature into Flower Mound, TX

Challenge:

People in Flower Mound, Texas are proud of their community, especially the natural beauty of the surroundings. In tribute to this lovely setting, park planners sought to implement the addition of unique playground features that incorporated a nature theme while blending with an existing scheme featuring vibrant colors. Finding just the right team of playground designers who shared their vision and had the artistic expertise to bring their ideas to life was easy once they talked with The 4 Kids in Greenville, Texas.

Solution:

After determining the specific needs of the community, our team went to work finding a playground solution that would thrill and delight park goers, while complementing the peaceful setting of the park. Realistic animal sculptures were created for children who love to interact with fascinating creatures as they climb, crawl and slide to their heart's content. Four lifelike ducks sit ready and waiting, mounted on heavy duty springs to allow children to bounce and rock in a world of nature. Other playground elements include water lily and cat tail post toppers with a curious ladybug crawling up the stem.
