

Delhi Bollard Planter

Whether you're adding green space to an outdoor dining area or preventing unwanted parking, the Delhi Bollard Planter is a substantial-looking site amenity that adds visual appeal to any site. We use glass fiber reinforced concrete (GFRC), an architectural composite with a higher tensile strength than steel. That gives this planter what it needs to also function as a tough bollard, helping protect people, cyclists, buildings, and vehicles. The graceful curves make it a fantastic setting for greens in public gardens, hospitals, museums, shopping areas, and more. The Delhi's size is fully customizable - we'll build exactly what you need, large or small.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
