

Dino Rock Climbing Pyramid

Perfect for little archaeologists in training, the Small Dino Rock Climbing Pyramid provides lots of fun in exploration. Little ones can sit next to the pyramid to touch and feel the texture of the dinosaur bones embedded into the sides of the pyramid. The textures help to stimulate sensory development by touch. At only 18" high, this is the ideal piece for toddlers at any museum or public park. We offer many different creatures in our prehistoric collection. Crafted from glass fiber reinforced concrete, this pyramid is sure to last as long as the real ones.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
