

Double Tree House

Maximize your fun more than once with Two Tree Houses. Kids will enjoy hours of fun running up and down, under and around this amazing dream tree house. This tree house features two tree houses. Kids walk up the stairs to a ramp that takes them to the first platform. The first tree house platform has a slide entrance that takes them down a log slide under the entrance ramp. They can run back up to the platform and cross a safety netted bridge to get to tree house two. This tree house features a playhouse with tree house windows to look out. To get down, they can cross the bridge OR they can slide down the spiral tree slide. The first tree house also has an entrance at the base for little ones to hide inside. If you'd like to add a little more fun to the exploration, we have peek-a-boo creatures that we will hide all over. Children's senses are alive when exploring the Double Tree House. Features include: slides, stairs, windows, bridges, playhouses, hidey holes and little critters. Their imaginations will run wild, and so will they. Bring them to a park of fun, where you know they can play safely. This structure is perfect in any setting, whether it be a public park, zoo or your own backyard. Our tree houses are made to order, so let's get started on yours today. For kids, it's all about fun. For parents, it's all about fun AND safety. We follow all safety standards, and ensure the bridges and platforms are safe with netting and railings.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
