

# Fort Yuma

It begins with a 2-level tree house that's the perfect place to start an adventure or share secrets with a pal. From the top level, children can zip down a super-cool twisty slide. The Fort Yuma offers additional slides (including a racer), a rope crawl tunnel, and a Covered Wagon Bridge, which features a durable, realistic soft cover. Want to customize? No problem. Whether you need custom signage or alternate colors, we'll make your vision a reality. At The 4 Kids, we know that installing a custom playground is about more than finding the fun factor. Facility managers, directors, and parents want safety too. That's why we incorporate only child-safe materials into our child-safe designs. Each piece is crafted to the highest safety standards with materials that stand up to virtually any weather condition.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
