

Large Whale Climber

Blue Whales are the largest mammals of the deep and are incredibly fascinating. Introduce your children to creatures of the blue with climbing sculptures that they can touch the texture and detail. Our talented artisans have over 30 years experience building and working with glass fiber reinforced concrete, making some of the most interesting pieces in architecture and themed playgrounds. Allow us to create something beautiful for your playground. Children will develop motor and sensory skills such as climbing, balancing, and touch. They can help their siblings climb to the top and stand over to pretend they are riding a whale across the waves of the ocean. We can make it a neutral color to blend in with nature or we can give it more of a realistic feel with the colors of the blue whale. We have many ocean creatures to choose from. Let us know which ones you would like for your playground. Call for a free quote.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
