

Metamorpho Swing

Butterflies are beautiful creatures with bright colored wings. Caterpillars are interesting insects as they come in many colors, also, and inch around on their teeny legs. They go about munching on all of the leaves. Indulge your children in a bit of entomology. This beautifully, hand crafted swing set will show everyone the life cycle of a unique insect. From a chunky Caterpillar, to a perfectly shaped Chrysalis, to magnificent Butterfly. Swing with nature on the Metamorpho Swing, made from glass fiber reinforced concrete and hand crafted leaves. Though the life span of a butterfly is only a year, this swing set will last a life time. This swing set is perfect for arboretums, botanical gardens, public parks, zoos, and more. We have other large insects as well. Check out our creepy crawlers, and give us a call today to get started making your nature themed playspace.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
