

# Mososaurus Tail

The Mososaurus was a gigantic prehistoric ocean animal. Known to have grown to 56 feet long, it would be the ultimate beast of the water world, were it alive today. Though this Mososaurus Tail climber is not as big, it packs a ton of fun. This fun dinosaur tail climber is ideal for prehistoric themed playscapes and museums. Perfect for water parks and public parks, this is a feature to have. It functions as a piece for children to develop their strength in climbing, and to encourage imaginative play. The Mososaurus is fully customizable, just as our other themed climbers are. Are you ready for a Cretaceous thrill at your city park? Give us a call to create some dinosaurs for you.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.

## Contact Us
