

PEROT MUSEUM

DALLAS, TX

Perot Museum's Leap Frog Forest is an Enchanting Wonderland for Young Visitors

- Six feet of realistic, detailed bullfrog for up close and personal froggy fun
- A frog playground experience for small museum visitors and adults alike
- Glowing illumination after dark, high quality resin construction

Challenge: Creating a bullfrog forest to charm and inspire children as part of The Perot Museum of Nature and Science.

Solution: Leap Frog Forest

The 4 Kids playground experts brought life to the Perot Museum of Nature and Science's Leap Frog Forest in the form of thirteen astonishing bullfrogs, six feet long playground sculptures.

Result: Awesome Museum Playground Experience

Instilling a lifelong interest and curiosity about nature and science is an accomplishment that is sure to benefit generations to come. At the Perot museum, children and families are able to interact in a wide variety of hands-on learning activities.

Next Step: Call The 4 Kids Experts

Since The 4 Kids play equipment is custom designed and of virtually maintenance free resin construction, the obvious next step for park, museum, playground or commercial center planners is to contact The 4 Kids expert team for a free initial consultation. Our experts will custom design the perfect playground to complement and enhance your theme.
