

Richland Bollard

Add character to any streetscape or landscape with the contemporary Richland Bollard. This security barrier is constructed using glass fiber reinforced concrete (GFRC), a strong material resistant to impact and weather--plus there's no steel reinforcement to corrode. You can count on the Richland Bollard to help safeguard pedestrians, vehicles, and other property. What's more, the simple lines blend perfectly with many sites, such as schools, campuses, museums, and more. The size will be customized to meet your specific needs, and we offer many colors.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.

Contact Us
