

Rocket Sculpture

It's time to blast off into a stratosphere of fun on the playground aboard The 4 Kids Rocket playground sculpture, designed to carry kids to new worlds of make believe adventure in every play area or theme park. Part of the large and varied collection of transportation themed park and playground equipment from the studio of The 4 Kids in Greenville, Texas, the Rocket will propel your kids to the highest levels of playground delight. Rounding out the décor of an Aerospace themed play setting or exhibit hall or providing kids with a chance to climb, crawl, slide or pretend, the Rocket is amazing. Meticulously detailed and realistically rendered, the Rocket play structure almost convinces visitors it's the real thing at 8 foot 4 inch tall. Perfect for space theme parks, water splash parks, community or commercial playgrounds, wherever young people gather for superior interactive play opportunities. A favorite of kids of all ages, the Rocket is also favored by park staffers, who value its high quality, durable construction material which is tough, weather-resistant and virtually maintenance free.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
