

Saber Tooth Fossil Skull

excavate your very own with The 4 Kids' Sabre Tooth Fossil Skull excavation. Kids will feel like an archaeologist as they wipe away the sand to reveal the most fascinating extinct creature. They can count the teeth, and feel the large canines that represent the sabretooth's most well-known feature. Bring out the natural explorer in your children. This would make a wonderful hands-on exhibit at a children's museum or an elementary science classroom. Widen their education and excitement with firsthand science.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground.
Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
