

# Seahorse Water Fountain

---

---

Seahorses are unique sea creatures. They move about in the ocean, eating constantly, and come in a range of exotic colors. Seahorses can grow a little over a foot long. These seahorses can be as big as you'd like, for they make a great feature for a water fountain. This Seahorse Water Fountain is not just for looks, you can splash in it too! The talented artists created this large seahorse fountain for the Atlantis Paradise Island Resort in the Bahamas. There are six seahorses, one on each column that spray water. Place this in your city center or splash pad for a beautiful display of art and fun. If you don't want seahorses, we can custom make a large water fountain for you. We also have beautiful ammonite shells that spray water as well. Let us help you create an entire water feature for your splash pad or resort. The guest will love going back again and again. This fountain was hand crafted using glass fiber reinforced concrete. It is the "smart"crete that gets better with time. It is durable and tough to resist the harsh weather that Mother Nature dishes out. Call us today for a free quote for your project.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.

## Contact Us
