

Sign 4

The 4 Kids expert team of designers knows that signs are the first thing customers see when they visit a place of business, and that first impression is worth a lot. That's why these Greenville, Texas artistic works of display art are customized to meet the needs and preferences of individual clients. Not just important for retail outlets, signs welcome patients at medical centers, tourists to vacation resorts, children to schools, day care centers, parks and playgrounds, even members of the general public at court houses and civic buildings. The possibilities are endless for well constructed, appealing signage such as this exceptional sample, classically shaped to draw attention and command respect. Arched elegantly and featuring fine, clean lines, this sign is sure to attract the eye and effectively point the way at entrances, inform and instruct or provide vital information. Customized in heights of 3, 4, 5 or 6 feet tall, the signs also gain another one foot three inches if they are mounted on the optional brick base for a classic look. Virtually indestructible, The 4 Kids sign designs are made from glass fiber reinforced concrete for superior performance in all weather conditions.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.
