

Sign 15

Announcing its message under a double arched crown, this sign structure by The 4 Kids in Greenville, Texas sets the tone for a pleasant experience wherever it is located, state parks, shopping malls, municipal buildings, educational facilities, or entertainment venues, among many others. Expert designers employ a large bank of knowledge and skill to customize signage design that perfectly complements the décor scheme of your venue, be it daycare center or senior center, ballpark or basilica, military base or museum. Flanked by interesting detail that includes stacked stone columns and a graduated base, the 3, 4, 5 or 6 feet high structure may also be mounted on an impressive brick base that will increase its height by a foot and 3 inches according to your specific signage needs. Customized for size, shape and color, the sign structure is created by masters in the art of park equipment and features quality craftsmanship such as glass fiber reinforced concrete for virtually no maintenance requirements in all weather. Even the salt spray from the ocean can't damage this superior finish.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
