

Sign 17

Everyone knows that you only have one chance to make a first impression, and no one knows it better than business owners, civic facility designers and park planners, or anyone who must ensure that clients, students, customers and visitors to their facilities have a super successful experience. That's why signage means so much, and choosing the right designs to make an amazing first impression is top priority. The 4 Kids team of artists has created this impressive sign structure that crowns your important information with an elegantly arched overhead for maximum effect. The eye catching sign is a must have for every location, from daycare centers to senior centers, courthouses to tennis courts, kindergartens to colleges and everything in between. Property owners love the design and artistry, but are especially appreciative of the high quality craftsmanship that goes into the sign structure creation. Glass fiber reinforced concrete construction ensures virtually no maintenance in all weather conditions. Customized according to your needs, the sign comes in 3, 4, 5 and 6 feet tall versions, with an option for mounting on a foot and 3 inch high brick base.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
