

## Sign 19

Dignified and stately, this superior sign structure from the artistic team at The 4 Kids is sure to enhance the décor at your location while providing signage with a flair for your public. Arched and flanked by eye-catching posts, the message area of the sign structure is broad and roomy to accommodate any variety of style or size for text. Heights for signs are 3, 4, 5 or 6 feet, with an option for mounting on an attractive brick base that adds an extra foot and 3 inches. The style lends itself well for placement anywhere, from ballparks to basilicas, schools to shrines, hospitals to hotels and everything in between. The possibilities are endless for locations either inside or outside, since weather is no problem for this high quality sign. Crafted with glass fiber reinforced concrete, called the smart concrete in the industry, the sign retains its durable finish in any weather condition, including ice, snow or even the salty spray from the ocean for years of service with very little maintenance required.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
