

# Squash Slide

Enough to make any gardener proud, this 15 feet long yellow squash is actually most loved by the kids on the playground, since it is The 4 Kids Squash Slide that offers a very cool tunnel slide right through the center of this giant veggie. Part of a garden themed park or playground, such as the Children's Museum of the Treasure Coast in Jensen Beach, Florida, this captivating squash replica, complete with meticulously detailed green leaves, offers kids of all ages the chance to get up close and personal with produce, climbing, crawling and sliding to their hearts' content. While parents are always in favor of healthy vegetables for kids, they love The 4 Kids Squash Slide for other reasons. Superior design by world-renowned playground artists, sculptors and engineers includes stringent safety standards and a high quality construction that ensures a weather resistant finish which is tough and resilient. This squash will retain its freshness in wind, snow, ice and even salt spray for years of exceptional service and great fun.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
