

Sun Post Topper

Even on cloudy days, the sun is always out at theme parks, science museums, space centers or family fun venues when The 4 Kids Sun Sphere Post Topper shines as part of a superior park décor scheme. The post topper lends itself perfectly as part of a collection of planet designs for solar system arrangements, or as a stand alone décor element that brightens entrances, borders walkways, supports and displays directional signs for guests or defines ride queues or food courts. Let the sun shine indoors as well as outdoors in your theme park. The possibilities for adding a ray of sunshine to the location are endless with The 4 Kids Sun Sphere. Set high or low as part of a display at a solar system exhibit, the sphere is a playground work of art from the world-renowned experts in The 4 Kids Greenville, Texas studios. Crafted with meticulous detail, the sphere has a tough, resilient finish that stays sunny even in rain, snow, ice or salt spray, making it virtually maintenance free for years of superior service.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
