

T-Rex Skull on Base

The T-Rex is always one of the stars in Dinosaur theme parks, family fun centers, animated expos and in playgrounds where children come to indulge their penchant for interactive play and imaginative make believe. Subtly setting the tone for adventure in a Dinosaur Park is this T-Rex skull on a base, which supports the theme and leads the way to the fun. The playground artists and designers in the studio of The 4 Kids playground manufacturer in Greenville, Texas are experts at well-crafted, realistic accent pieces to help build the level of excellence and fun in the park for kids of all ages. This T-Rex Skull from The 4 Kids is just short of two feet tall and almost 20 inches long, so authentically designed that kids will believe it's a real artifact from the Jurassic period. However, the superior construction process and material ensures playground structure durability and long life in all kinds of weather, requiring very little care. Custom designs are created according to the needs of our clients and our experts offer support and guidance from project start to finish.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
