---

This beautiful mother Tigress with Cub is a true work of playground art from the studio of The 4 Kids in Greenville, Texas. Sure to enhance fun settings, whether zoo themed parks or splash pads, commercial or community recreation areas and indoor or outdoor fun centers, this little family is a delightful addition. Custom designed according to your park or playground needs, this Tigress With Cub is part of a varied collection of playground sculptures built to individual size and specifications. If you think this mother and baby have a place in your themed park or playground, our experts can make it a reality, ensuring professional support and guidance from your project beginning to end. The play sculpture will be a favorite of the park maintenance staff, since its high quality resin construction ensures low to no maintenance for years of tough, weather resistant service. As a wildly popular piece of playground equipment, the Tigress With Cub offers kids at the park the chance for interactive play that works the muscles and the imagination.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.
