

Tree House Adventure

Enjoy a Tree House Adventure with our deluxe style play house. This amazing treehouse will provide hours of fun for children and adults. This playscape features: Two tree houses of different styles, each with a slide. There is also a covered deck area. Each tree house has its own deck, and they are all connected by bridges with safety netting. Stairs provide easy access to the top. There are multiple entrances at the bases of the trees. Children can play hide-and-seek in the tree trunks, look out the windows, then run out to go up top. This is perfect for public parks, museums and zoos. When you are on top deck, you can look out over the zoo, and see all of the animals around. On a public park, the parents will enjoy the openness of the viewing area, as they watch from down below. Tree houses help children develop physically, as they use their motor skills, including flexibility, balance and agility to climb up, down, and slide. On a social level, they get to interact with other children and play imaginative games.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
