# Tree Stump Steppers

The 4 Kids has created a new dimension to artful play. The company has focused on bringing back nature to the playground allowing children to get closer to nature in a safe environment. These stumps are crafted from glass fiber reinforced concrete. This material is revolutionary because it is weather resistant and rust free. This means that maintenance is low ultimately keeping your overall cost down. These stump steppers are created to mimic the bark stump of a tree. The textured detail is hand crafted to make each playground unique. Let The 4 Kids help you with your next project, call us today!

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
