

Ultimate Tree House

Your children will have a blast climbing, sliding and exploring all over this amazing tree house. Kids can run along the spiral stair case to the top and enter the woodland gazebo which is surrounded in safety netting. They will then spiral down in the tree trunk slide. We have also placed an opening behind the interior slide, so children can hide inside the tree trunk as well. This fun house is 16 feet tall and 11 feet wide at the base. If you need taller or shorter, just let us know. Connect two of them to really We created a taller version of the spiral tree slide for The Foster Tree House in El Paso, TX. Windows, tire swings, tree house swings, and we can have benches built right into the roots! The possibilities are endless. Rope or tape lighting is also an option. When it comes to safety and fun, our artists are ready to create something spectacular.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
