

# Large Hippopotamus

This Hippopotamus may be large, but he won't charge you. Life size at almost 10feet long and 4feet wide, kids will wonder if this animal is real. Give them an educational experience by allowing them to get up close and personal to an amazing creature to touch and see the details of their skin. Hippos are usually found in Africa and love to swim in the water. They also graze on land. Place this large beauty on your playground or in your zoo. Children will love to tackle the challenging of climbing onto his back. Crafted from a sturdy material, and colored to your request, this hippo can withstand the uv rays and tough weather conditions.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
